BaseHead 3.x – SFX Database Install Notes

All install info and requirements can be found here
http://baseheadinc.com/products/basehead/online-manual-3x-pc
This whole 1st page should be read before you play.

Which version to run after install?
If you want to run the Demo to check it out before you purchase, then go to
your install directory and run **BaseHead.exe** or use the **BaseHead Demo**
link from the desktop.
If you already have purchased a 3.x License then run **BaseHead-CM.exe**
or use the shortcut on the desktop.

Enjoy!
